**Helpful Hint for TABE Online**

Even if the report takes a while to print, you can still get results immediately.

Here are the steps:

1) Choose the test the student took.
2) Click “View Status”.
3) Choose the student’s name.
4) Click “Subtest Details” found just below the student names. The subtest will give you a raw score so you can figure the score yourself using the Norms Book.

**Trouble Shooting:**

**Step # 1 - Contact Online Assessment Help Desk**

Call the TABE Online Support team directly - online Assessment Product Support: **866-282-2250**. When you call, you will be given a Support Ticket number that you should save for future reference.

**Step # 2 - Contact KYAE**

If the support team is unable to satisfactorily resolve the issue, please e-mail Terry Tackett a description of the issue and the related support ticket number. We will work directly with Mike Johnson and the TABE Online Support teams to resolve the issue.
