The following was sent to the listserv.

FROM CODY: Learning plans required for every student

As we have visited local programs, we have identified a technical assistance need related to **student learning plans**. Below, you will find a link to a variety of orientation and intake resources. On page seven of the Implementation Guidelines, it notes that all programs **shall** have, for every student, a "learning plan with short- and long-term goals with an emphasis upon a career pathway" (p. 7). One of the resources you'll find when you click the link, is a template for a student learning plan that would meet the criteria outlined in the Implementation Guidelines.

Also, we want to remind you that students and instructors must sign assessments given in this fiscal year.

Here is the link to the orientation and intake resources: <http://kyae.ky.gov/educators/orientationintake.html>.
