

# My Learning Plan

Name \_\_\_\_\_

Choose a step from your goal-setting sheet. This step should have multiple tasks. Write this step in the box marked "Learning Step." Set an overall "do by" date by which you will have this step complete. Break your learning step into smaller tasks, and create "do by" dates for each of these tasks. Once you've completed these task, mark "done," and before you know it, you will have completed this learning plan. Reward yourself and then move on to your next learning plan!
